Agregarle JavaScript al sitio, utilizando los conceptos de String Template y Manejo del DOM

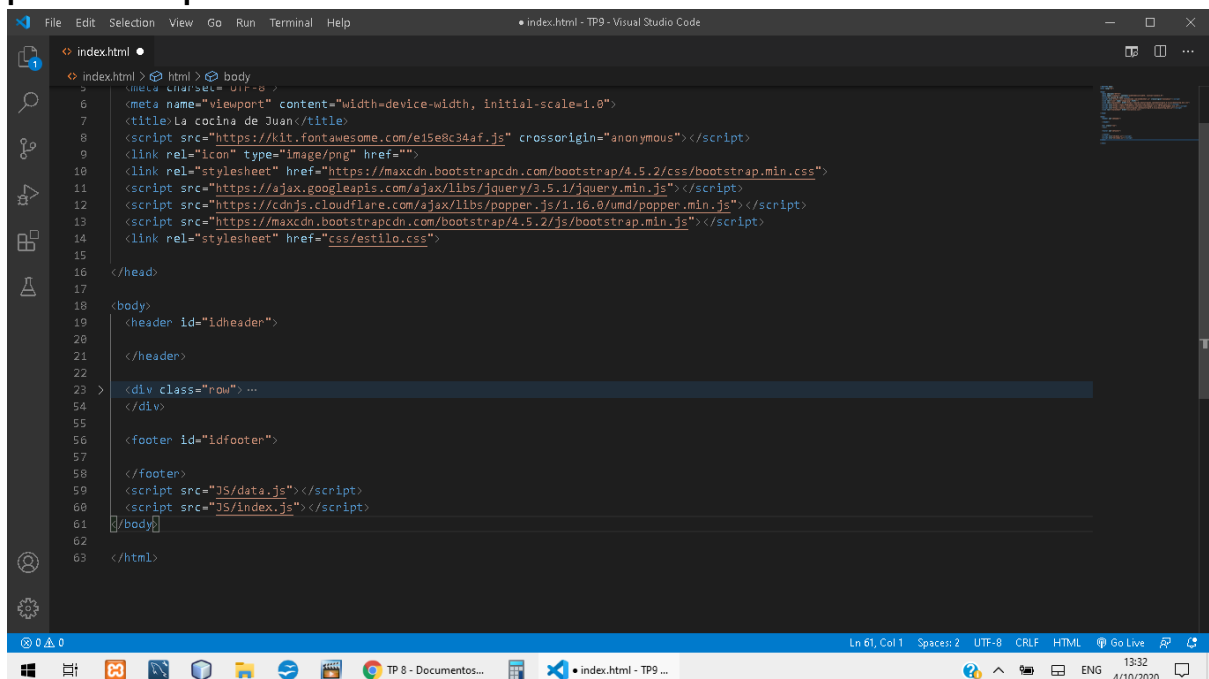

Video: <https://youtu.be/l-xhTAxHJrs>

En JavaScript definir 2 variables una que contenga el header y otra el footer del html y asignarlos dinámicamente al HTML y reemplazarlo en todas las páginas.

A screenshot of the Visual Studio Code editor with a file named 'index.js' open. The code is a JavaScript file that defines a variable 'cad' containing HTML for a navigation bar. It uses template literals to construct the HTML. The code includes a toggle button and a list of links. At the bottom, it uses 'document.getElementById' to find the 'idheader' element and assigns the content of 'cad' to its 'innerHTML'.

```
1 let cad=`
2 <h1>La cocina de Juan</h1>
3 <nav class="navbar navbar-expand-md bg-dark navbar-dark">
4   <a class="navbar-brand" href="index.html">Home</a>
5   <button class="navbar-toggler" type="button" data-toggle="collapse" data-target="#collapsibleNavbar">
6     <span class="navbar-toggler-icon"></span>
7   </button>
8   <div class="collapse navbar-collapse" id="collapsibleNavbar">
9     <ul class="navbar-nav">
10
11       <li class="nav-item">
12         <a class="nav-link" href="about.html">Acenda de</a>
13       </li>
14       <li class="nav-item">
15         <a class="nav-link" href="contact.html">Contacto</a>
16       </li>
17       <li class="nav-item">
18         <a class="nav-link" href="location.html">Sucursal</a>
19       </li>
20       <li class="nav-item">
21         <a class="nav-link" href="form.html">Registrarse</a>
22       </li>
23       <li class="nav-item">
24         <a class="nav-link" href="NuestrosProductos.html">Nuestros Productos</a>
25       </li>
26     </ul>
27   </div>
28 </nav>
29 `
30 document.getElementById("idheader").innerHTML=cad;
31 cad=`
32   <a class="redsoc" href="https://www.twitter.com" target="_blank"><i class="fa fa-twitter"
33   aria-hidden="true"></i></a>
34   <a class="redsoc" href="https://www.facebook.com/masculi.cocina" target="_blank"><i class="fa fa-facebook
```

y en html definir una etiqueta <header> y <footer> con el id que vaya a ser modificado por JavaScript

A screenshot of the Visual Studio Code editor with a file named 'index.html' open. The code is an HTML file that defines the structure of a web page. It includes a head section with meta tags, a title, and links to CSS and JavaScript files. The body section contains a header with 'idheader', a main content area with 'idmain', and a footer with 'idfooter'. It also includes links to JavaScript files 'data.js' and 'index.js'.

```
1 <!DOCTYPE html>
2 <html>
3   <head>
4     <meta name="viewport" content="width=device-width, initial-scale=1.0">
5     <title>La cocina de Juan</title>
6     <script src="https://kit.fontawesome.com/e15e8c34af.js" crossorigin="anonymous"></script>
7     <link rel="icon" type="image/png" href="">
8     <link rel="stylesheet" href="https://maxcdn.bootstrapcdn.com/bootstrap/4.5.2/css/bootstrap.min.css">
9     <script src="https://ajax.googleapis.com/ajax/libs/jquery/3.5.1/jquery.min.js"></script>
10    <script src="https://cdnjs.cloudflare.com/ajax/libs/popper.js/1.16.0/umd/popper.min.js"></script>
11    <script src="https://maxcdn.bootstrapcdn.com/bootstrap/4.5.2/js/bootstrap.min.js"></script>
12    <link rel="stylesheet" href="css/estilo.css">
13  </head>
14  <body>
15    <header id="idheader">
16
17    </header>
18
19    <div class="row"> ...
20  </div>
21
22  <div class="row"> ...
23  </div>
24
25  <div class="row"> ...
26  </div>
27
28  <div class="row"> ...
29  </div>
30
31  <div class="row"> ...
32  </div>
33
34  <div class="row"> ...
35  </div>
36
37  <div class="row"> ...
38  </div>
39
40  <div class="row"> ...
41  </div>
42
43  <div class="row"> ...
44  </div>
45
46  <div class="row"> ...
47  </div>
48
49  <div class="row"> ...
50  </div>
51
52  <div class="row"> ...
53  </div>
54
55  <div class="row"> ...
56  </div>
57
58  <div class="row"> ...
59  </div>
60
61  <div class="row"> ...
62  </div>
63
64  <div class="row"> ...
65  </div>
66
67  <div class="row"> ...
68  </div>
69
70  <div class="row"> ...
71  </div>
72
73  <div class="row"> ...
74  </div>
75
76  <div class="row"> ...
77  </div>
78
79  <div class="row"> ...
80  </div>
81
82  <div class="row"> ...
83  </div>
84
85  <div class="row"> ...
86  </div>
87
88  <div class="row"> ...
89  </div>
90
91  <div class="row"> ...
92  </div>
93
94  <div class="row"> ...
95  </div>
96
97  <div class="row"> ...
98  </div>
99
100 </body>
101 </html>
```
